

Jira Software Cloud Premium

Jira Software Premium helps you scale the way your organization works, offering an advanced toolkit for admins, better visibility across work in your instance, and a solid foundation on which to grow.

Automate tasks and processes to save time for your team and organization

With Jira Premium's new, no-code automation features you can build and edit automations across your entire business or a handful of Jira projects in a few clicks.

87% of Jira automation users say it makes it easier to scale Jira within their organizations

Build roadmaps that span multiple teams and Jira projects

Advanced Roadmaps gives you an eagle eye view over all the work you're tracking in Jira Software. This powerful feature also helps you manage team capacity, track progress, and get ahead of dependencies and blockers across teams. Easily share your cross-team roadmap with stakeholders throughout your business.

“ Jira automation is indispensable. It saves my team a lot of time and building automations across all of our tools is simple and easy.
