

IS Grocery – software for your grocery store

IS Grocery is a solution developed for the specific needs of supermarkets and grocery stores. It combines the rich functionalities of Microsoft Dynamics and LS NAV, while enhancing them with specific features for food retailers. IS Grocery enables efficient expiry date and batch tracking, optimizes inventory planning and management, defines specifics of vendors (e.g. their logistic processes). **IS Grocery** has ready-to-go reports and analysis for tracking of retailers' KPIs on a daily basis.

IS Grocery delivers specific functionalities to all retailers that want to take control over their business:

- Full visibility on all transactions and processes from POS to the back office
 - Efficient inventory management
 - Order planning based on various factors like historical data, season, weather forecasting, holidays, etc.
 - Central price management
 - Detailed profile of each supplier
 - Loyalty programs
 - Cash flow and bank management
 - Seamless integrations with external software and devices (printers, scales, POS payment terminals, etc.)
 - Detailed reports and analysis on a daily basis
- and many more.

Valuable benefits for your grocery store

- Total visibility of all transactions from POS to accounting
- Efficient tracking of dates of expiry and batch numbers
- Better cooperation and enhanced communication among employees
- Improved planning capabilities of orders to suppliers
- Lower risk of stock-outs
- Reduced fraud and shrinkage
- Central control and administration of products and prices, special offers, promotions, campaigns, etc.
- Better customer service and increased customer loyalty
- Cash flow management
- Improved productivity and profitability of the company
- Quick access to essential financial and accounting data, and specialized analyses and reports
